What is a “Go2inventories”, Inventory Report?

This **Go2inventories** Report provides a fair, objective and impartial record of the general condition of the contents of the Property as well as its internal condition at the outset of the lease of the Property.

What are the benefits of using this Report?

The importance of a professional inventory and statement of condition cannot be underestimated. Government advice indicates that Inventories and statements of condition are 'strongly recommended' as a means to reduce dispute about the deposit at the end of a tenancy. It is in the Tenant's interests to carefully check this **Go2inventories** Report and to highlight any discrepancies as soon as possible and in any event no later than 7 (seven) days after this **Go2inventories** Report is completed. Any outstanding discrepancies found at the end of the tenancy will be highlighted in a Mi-inventory Outgoing Report and may affect the retention or release of the tenancy deposit.

Is the Report aimed at the Landlord or the Tenant?

Because the **Go2inventories** Report is objective and carried out by an independent Inventory Provider, it may be relied upon and used by the Landlord, the Tenant and Letting Agent.

What does this Report tell you?

Our **Go2inventories** Report provides a clear and easy to follow statement of condition for each of the main elements of the property on a room by room basis, together with its contents if appropriate. This report comments on and highlights defects or aspects of poor condition that have been identified by the Inventory Provider. Defects in condition will either be described in the narrative of the report or evidenced in the photographs included in the report. Please Note: where no comment on the condition of an element or item of contents is made by the Inventory Provider, the element or item is taken to be in good condition and without defect.

What does this report not tell you?

Whilst every effort is made to ensure objectivity and accuracy, our **Go2inventories** Report provides no guarantee of the adequacy, compliance with standards or safety of any contents or equipment. This report will provide a record that such items exist in the property as at the date of the **Go2inventories** Report and the superficial condition of same. This report is not a building survey, a structural survey or a valuation, will not necessarily mention structural defects and does not give any advice on the cost of any repair work, or the types of repair which should be used.

What is inspected and not inspected?

Our Inventory Clerk carries out a visual inspection of the inside of the main building together with any contents and will carry out a general inspection of the remainder of the building including the exterior cosmetic elements and any permanent outbuildings. For properties let on an unfurnished basis, the inspection will include floor coverings, curtains, curtain tracks, blinds and kitchen appliances if appropriate, but will exclude other contents.

Gardens and their contents will be inspected and reported upon.

Items such as Boilers, central heating, taps, toilets, kitchen appliances, sanitaryware, electrical goods any Gas, Water or Electrical systems etc are deemed as working, our surveyors are not Electricians, Gas engineers, Plumbers or PAC Inspectors therefore items such as these are not physically checked.

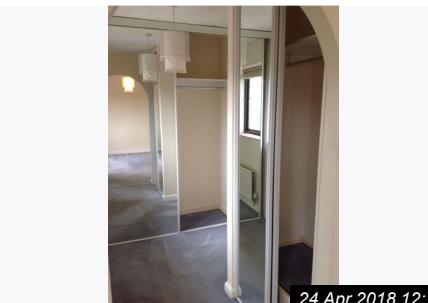

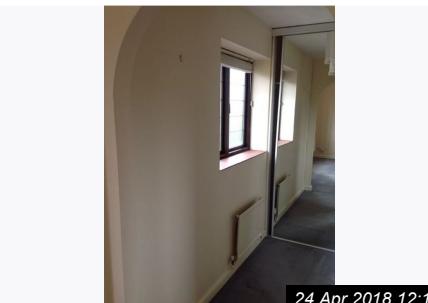

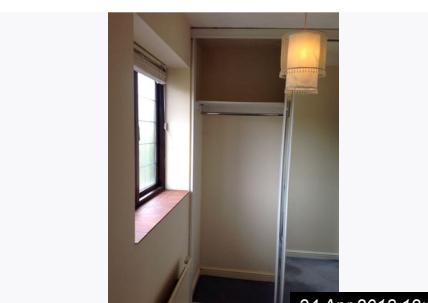

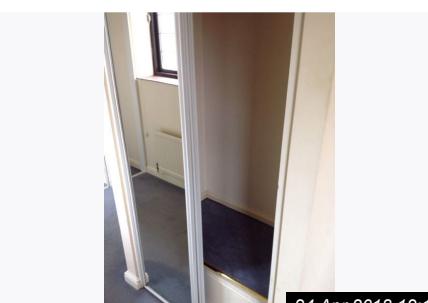

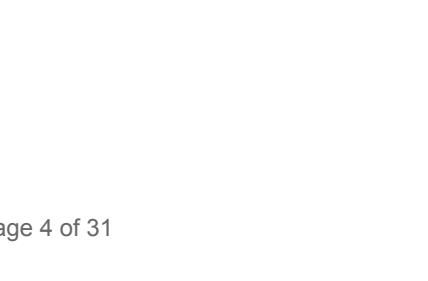

White Goods within the property will be noted and the visual condition noted as seen fit. We do not check nor tested any White Goods and/or appliances. Any such appliances will be deemed in a good working condition. It is the responsibility of the Landlord to ensure that any such items within the property are in a good working order and where necessary, have the regulatory PAC testing.

The inspection is ‘non-invasive’.

This means that our Inventory Clerk does not take up carpets, floor coverings or floor boards, move any items of furniture, test services, remove secured panels or undo electrical fittings. Especially valuable contents such as antiques, personal items or items of jewellery are excluded from this report. Kitchenware will be inspected but individual items will not be condition rated. Common parts in relation to flats, exterior structural elements of the main building and the structure of any outbuildings will not be inspected. Roof spaces and cellars are not inspected, however cellars if easy access is available, will have overview images taken at the discretion of the surveyor. Areas which are locked or where full access is not possible, for example, attics or excessively full cupboards or outbuildings are not inspected.

Properties where Landlord has given special permissions for tenant to move some items into the property, will be shown as "Items not part of Tenancy". Any such items will NOT be moved therefore, flooring, cupboard space and or any fixtures that might be inspected will not have any comments and should previous damage or defects be covered by these the tenants items, these defects or damage will not be recorded within the report.
